# ABOUT US

American Digital Security's long list of big business clients agree: ADS is a major player in the security industry. In business since 2002, ADS has grown from revenues of \$750,000 in its first year of operation to over \$20 million a year in 2020. ADS offers a state contract through The Interlocal Purchasing System (TIPS) for all 50 states.

We embrace a culture dedicated to our four core values: Family, Safety, Service, and Respect. Therefore, our business philosophy is built around trust, partnerships, and leveraging proven technologies that will provide you with the maximum value and reliability for years to come.

From award-winning video surveillance solutions to the latest intercom and access control systems, to advanced information management systems, we never lose sight that we are in the business of protecting people, not just property.

ADS FOR ALL YOUR SECURITY NEEDS!

## End-To-End Professional Security Services

Our fully integrated approach will deliver the level of security and service that you require and deserve, no matter what your industry is.

### ON-SITE RISK ASSESSMENT

We offer a free on-site consultation by our certified security consultants to identify your specific needs and concerns.

### PLANNING & DESIGN

Our certified security consultants will develop the system architectural concept, determine an accurate estimate, and design a solution offering the highest level of security and efficiency - all while meeting your budget.

### QUALITY INSTALLATION

Our certified installation team will ensure a quality and unobtrusive installation, delivered on-time and on-budget without interruptions in your facilities.

### SUPPORT AND MAINTENANCE

We offer expert service, extended maintenance agreements, and around-the-clock on-call support to ensure your systems function properly.

## 20+ Partners

We select only the highest quality products and partners to meet your needs.

# OUR SOLUTIONS

REST ASSURED, WE WILL HELP FIND THE BEST SOLUTION  
THAT FITS YOUR NEEDS

## Video Surveillance

Our latest and most advanced video management software is designed to revolutionize how operators interact with and gain situational awareness from their video security systems. Our easy-to-deploy video systems are highly scalable, efficient, and affordable - reducing the need for more cameras, saving you money.

## Access Control

Create safer, more secure spaces with complete access control with scalable cloud-based software and endless integration capabilities. It's as easy as unlocking doors from your smartphone. Built to scale for thousands of users across multiple locations, centralize security management with robust cloud-based software or on-site appliance, allowing seamless integrations.

## Intrusion Alarms

Gain around-the-clock protection, remote access and central station monitoring with our custom-tailored, state-of-the-art burglar alarm systems. Simple and practical alarm systems are one of the most effective ways to protect your assets.

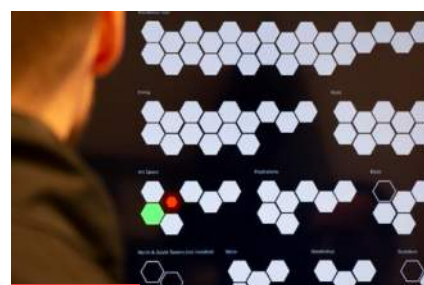

## Visitor Management

Protect students and faculty by logging visitors and screening for sex offenders or school-restricted individuals. Positive identification and unique security put your school in control with a simple scan of a driver's license.

## Fire Detection Systems

Fire safety is a fundamental mandate for every enterprise, facility, campus and municipality. Fire safety begins with fire detection, and as a long time expert in all things safety, ADS is here to provide service, installation, testing & inspection of your fire detection system.

## Self-Learning Video Analytics

Our video analytics technologies feature a sophisticated deep learning AI search engine for video. Sort through hours of video with ease to quickly locate a specific person or vehicle of interest by entering physical descriptions, uploading a photo, or by finding an example within recorded video.

# OUR TEAM

OUR TEAM OF INDUSTRY EXPERTS ARE HERE TO HELP  
PROTECT WHAT'S MOST VALUABLE TO YOU

“ADS is located about three and a half hours from our schools, but have provided excellent service. In fact I am equally impressed with their service as the quality of their product. Our SROs [school resource officers] have used the system many times since it was installed to solve crimes, determine involvement of people in fights as well as viewing car accidents some reported and some were hit and runs. I have no hesitation to recommend ADS and their IP camera system to any school or business looking for a quality video surveillance system.”

## Director of Facilities

Union R-XI School District

## Buddy Mason

Founder/Vice President

- Over 20 years of experience in security industry
- Founded American Digital Security in 2002
- Managed projects ranging from \$5,000 - \$7 million

- ACC, ACM certified

# OUR TEAM

OUR TEAM OF INDUSTRY EXPERTS ARE HERE TO HELP  
PROTECT WHAT'S MOST VALUABLE TO YOU

“ I have worked with many other integrators and by far ADS has been the best I have dealt with to date. They have the best quality of work, and the most knowledgeable technicians in the field and in the office. They have fast response times and service, are easy to work with and are trustworthy. They also went the extra mile a couple times in some cable pulls as I couldn't make up my mind so they went ahead and pulled an extra line for future changes.”

## Audio Visual Supervisor

Kansas City Kansas Public Schools

**Brian Miller**  
Sales Engineer

- Over 10 years of experience in security industry
- 12 years of IT experience
- Extensive experience in Networking, Wireless Networking, Active Directory, Linux, BSD and Troubleshooting
- Taken over 1400 cameras in a single job and upwards of 300 doors

**Jen Smead**  
Security Consultant

- Over 12 years of experience in security industry
- ACM, ACC certified
- Managed projects ranging from \$1,000 - \$4 million
- Managed multiple takeovers and conversions

Division of The Kincaid Group

First, thank you for the opportunity to work with Topeka Metro, we appreciate your business! American Digital Security (ADS) is recommending replacing both sites current DVR's & analog cameras with an Avigilon end-to-end Video Management system, this comes from many years of Designing, Installing & maintaining video surveillance systems.

Avigilon HD Video Appliance, Avigilon Enterprise video management software, & Avigilon HD cameras with self-learning analytics to provide you with one simple, powerful surveillance solution.

Our team at ADS asks that you at least give us the opportunity to meet with you all in person to demonstrate and explain what we have done for other companies over the past 18 years.

Below are a few of the many advantages of upgrading to Avigilon-

- You will not be anchored to costly annual software subscriptions, which will mean your software will always be up to date to take advantage of our analytics, face detection and identity search.
- No more finger pointing between manufacturers if problems arise, as we know they do with new software releases. This keeps your security systems very secure.
- Maintaining the system is overall easier, no more firmware updates with Avigilon cameras, it is done automatically.
- Avigilon cameras that include the analytics you will be able to find events faster and not record anything other than people or vehicles.
- ADS has four dedicated inhouse tech support technicians to assist you with anything you might need. No other integration company has highly trained IT support staff like we do. No need to wait for a call back or the annual fee to have the rights to call the manufacturer.
- Three Year parts and labor warranty – we support our customers!

**Recommended Proposal for replacing I3DVR & Analog cameras with Avigilon HD appliance's, ACC7 Enterprise software, Avigilon HD Analytic cameras for all exterior cameras, & main entrances.**

**Administration building- 24TB HD Avigilon Appliance with 5 exterior & 11 Interior cameras. See attached plans for camera placement and coverage. Price with recommended options- \$54634.57**

- Avigilon HD video Appliance with 24TB storage.
- Analytics kit for Appearance search & Facial recognition (Optional)
- (16) ACC7-Enterprise software licenses.
- (5) 3x4K Exterior Analytic multi-sensor cameras- equivalent to (15) 8-megapixel cameras.
- (11) Interior cameras. Main entrance & Driver entrance will be covered with Analytic 360 fisheye cameras.
- Remote monitor workstation with 32" Ultra HD 4K LED monitor, and Fully configured Professional USB Surveillance joystick. (Optional)

Division of The Kincaid Group

**Quincy Station- 24TB HD Avigilon Appliance with 9 exterior & 7 Interior cameras. See attached plans for camera placement and coverage. Price with recommended options \$67275.13**

- Avigilon HD video Appliance with 24TB storage.
- Analytics kit for Appearance search & Facial recognition (Optional)
- (16) ACC7-Enterprise software licenses.
- (8) 3x5MP Exterior Analytic multi-sensor cameras- equivalent to (24) 5-megapixel cameras.
- (1) 4x5MP Exterior Analytic multi-sensor cameras- equivalent to (4) 5-megapixel cameras
- (11) Interior cameras. Main entrances, Driver entrance, shelter seating will be covered with Analytic Cameras.
- (1) Remote monitor workstation with 32" Ultra HD 4K LED monitor, and Fully configured Professional USB Surveillance joystick. (Optional)

**Timeline** - Once our Proposal is selected, we would like to review them in detail with Topeka Metro to ensure any areas in question are addressed. We will need approximately 5 weeks obtain equipment. Once work begins, it will take approximately 2 weeks to complete installation.

**Management** – ADS is different than most Integrators as our Account Representatives are present from the beginning proposal phases, throughout the installation and training phases. We think it's important to have one main point of contact. Once the project is scheduled, Brandon Sobotka, our Installation Manager, will start having a lot of contact with Topeka Metro (including your Account Rep) to ensure items are in place before our arrival. He will manage our technicians throughout the installation and address any questions or concerns that arise.

**Support** – ADS has always offered in-house Technical Support free of charge during the hours of 8am-5pm Monday – Friday. Anybody is welcome to call in, however we strongly urge the district to appoint a small number of people to contact ADS. That way, TPS is aware of what is being requested, and ADS not giving instructions to a user who shouldn't be doing certain tasks or doesn't have certain access (example, exporting video). We typically hear from a new user a few times immediately following the installation, but not often afterwards as the Avigilon platform is rather intuitive. After hour support is also available in the event of an emergency.

**Documentation** – A finalized version of the documentation within will be provided after the installation. This documentation will include, but not limited to:

**Spreadsheet**

(Schedules) – The included spreadsheets will be expanded to indicate the camera IP information, switch port it is currently occupying. These documents will help ADS to remotely assist with any future troubleshooting or additions.

Division of The Kincaid Group

### **Experience**

As you can see from our references, ADS can handle any size project.

### **Total Cost of Ownership**

Avigilon has the lowest cost of ownership for Enterprise level Software and Products for video in the world.

Since video recording appliances are running 24/7, we do recommend replacing them around year 5, or at least having the budget to do so. Avigilon only charges for major software releases anticipated every three years.

### **Training**

A brief training will be provided immediately after the installation by technicians on-site. A full training will be scheduled after the installation by your Account Representative. Usually, two training sessions work well. The first to get familiar, and the second several weeks later once users have had a chance to familiarize themselves and develop questions. Please remember our four IT Support Technicians are only a phone call or e-mail away at any time to support you.

### **Camera/Software Setup**

The camera number will be entered in the Camera Name and Location Fields. This will allow quick camera identification and documentation.

ADS will be happy to assist with cropping out unwanted motion areas such as flag poles, trees, streets in background, but it is the responsibility of Topeka Metro to confirm these settings.

ADS will setup a single User and Group and provide instructions so that other Administrators can setup the remaining Users and Groups. ADS will be happy to assist but cannot be held responsible.

### **Customer responsibilities:**

- 1- Provide POE++ switches as needed for cameras.
- 2- Provide battery backup with power conditioner for HD appliances and POE switches.

## Customer Care Plan Topeka Metro- Admin Building

### Video Surveillance

**Management:** Upon request, ADS Support will manage user/group settings, motion recording settings, camera display/frame rate settings and VMS rules.

**Health Monitoring:** Servers and cameras have their network connectivity, hardware resource usage and RAID arrays/hard drives monitored. ADS Support receives an automated alert, investigates, and attempts to resolve the issue in the event that a device drops offline, a hard drive fails or there is an issue with hardware resource usage. Alerts during business hours are investigated within 4 hours and site contact is notified if the issue cannot be resolved remotely.

**Monthly Summary Reports:** Reports will include server status, recording retention time and camera connectivity information.

**Maintenance:** Site settings/configuration backed up monthly. Minor version upgrades completed upon request.

**Maintenance:** No cost for service call labor. Two site checkup visits per year. Includes re-aiming/focusing cameras and a system functionality check.

**Out-of-warranty Discount:** 20% off MSRP on out-of-warranty hardware.

**Response Time:** 1-2 business day response time for on-site service.

**Emergency Service Calls:** 20% discount on emergency service call labor.

**Annual Cost** **\$2000.00**

**DISADVANTAGED BUSINESS ENTERPRISES (DBE) CERTIFICATION**

This contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, *Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*. The national goal for participation of Disadvantaged Business Enterprises (DBE) is 10%. Metro's overall 2019-2021 goal for DBE participation is 2.00%; the race neutral goal is 1.12%, and the race conscious goal is 0.88%. There is no contract goal for this procurement.

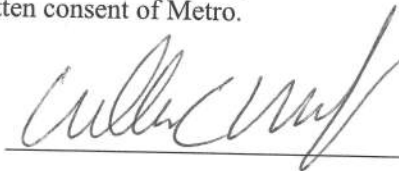

The contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of this DOT-assisted contract. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as Metro deems appropriate. Each subcontract the contractor signs with a subcontractor must include the assurance in this paragraph (see 49 CFR 26.13(b)).

The contractor is required to pay its subcontractors performing work related to this contract for satisfactory performance of that work no later than 30 days after the contractor's receipt of payment for that work from Metro.

The contractor may not hold retainage from its subcontractors.

The contractor must promptly notify Metro, whenever a DBE subcontractor performing work related to this contract is terminated or fails to complete its work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. The contractor may not terminate any DBE subcontractor and perform that work through its own forces or those of an affiliate without prior written consent of Metro.

NON-COLLUSION CERTIFICATION

This is my sworn statement to certify that this proposal was not made in the interest of or on behalf of any undisclosed entity. This proposal is not collusive.

This proposer has not been a party to any agreement or collusion in restraint of freedom of competition by agreement to bid a fixed price, to refrain from bidding, or otherwise. This proposer has not, directly or indirectly, by agreement, communication or conference with anyone, attempted to induce action prejudicial to the interest of Topeka Metropolitan Transit Authority, or of any proposer, or anyone else interested in the proposed contract.

**SUSPENSION / DEBARMENT CERTIFICATION**

**In regard to 2 CFR Parts 180 and 1200**

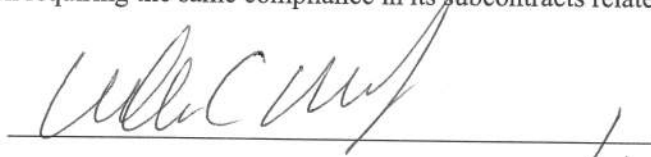

In accordance with 2 CFR Parts 180 and 1200, the contractor is required to verify that none of its principals or affiliates:

- 1) is included on the federal government's suspended and debarred list;
- 2) is proposed for debarment, declared ineligible, voluntarily excluded or disqualified;
- 3) within three years preceding this proposal, has been convicted of or had a civil judgment rendered against them for (a) commission of fraud or criminal offense pertaining to performing a public transaction, (b) violation of any federal or state antitrust statute, or (c) embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements or receiving stolen property;
- 4) is indicted or charged by a governmental entity for any of the charges in 3) above; and
- 5) has had any public transaction terminated for cause or default within three years preceding this proposal.

The contractor is required to include this requirement in any subcontracts related to this contract.

By signing and submitting its proposal, the proposer certifies that the certification in this clause is a material representation of fact relied upon by Metro. If it is later determined that the proposer knowingly rendered an erroneous certification, in addition to remedies available to Metro, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment. The proposer agrees to verify that none of its principals or affiliates is included on the federal government's suspended and debarred list at any time throughout the period of this contract. The proposer further agrees to include a provision requiring the same compliance in its subcontracts related to this contract.

## MANUFACTURER'S AUTHORIZATION AND RECOMMENDATION FORM

**May 1st, 2019**

To whom it may concern,

We hereby confirm that American Digital Security (ADS) is a fully trained Avigilon Enterprise Certified Solution Provider authorized to re-sell, install, and support Avigilon High Definition Surveillance Systems and Access Control. ADS is among our top performing consultants and has qualified as one of our ELITE PLUS partners for almost a decade. ADS continues to not only lead the industry by providing superior products and services to our customers, they have also set the standard on continuing to support our customers' needs through the life of our products. ADS' teams have experience with projects of all sizes stemming from small solutions and upgrading legacy installations to large multi-million dollar design and build enterprise solutions.

### Best-in-Class Support

Our customer service and 24/7 technical support teams consistently achieve a 97% customer satisfaction rating. We have well-trained and passionate representatives who deliver fast, efficient and effective customer service.

**Authorized Partner**

Avigilon began as a pioneer and leader of end-to-end, high-resolution video surveillance systems, helping to shift the industry from low-resolution analog imaging to high definition digital systems. Today, our innovation focuses on developing security solutions that harness the power of AI and video analytics technology to enable security operators to focus on critical events for faster response and better decision-making. Avigilon is proud to be a North American manufacturer of trusted security solutions, with Canadian and American expertise and globally sourced materials. Our state-of-the-art facilities in Richmond, British Columbia, and Plano, Texas, ensure quality control and efficiency throughout the manufacturing process. By manufacturing in North America, we are better able to control every aspect of the process to deliver exceptional quality to our customers. Our high standards of manufacturing process and quality have allowed us to achieve ISO 9001:2015 quality certification as well as two SAFETY Act Designations from the U.S. Department of Homeland Security.

Industry's Largest Portfolio of High-Resolution Single-Sensor Cameras Avigilon's exceptional HD Pro camera line features resolutions ranging from 4K (8 MP) to 7K (30 MP) with wide area coverage, powerful zoom and embedded self-learning video analytics\* to enhance situational awareness and provide superior evidentiary detail during investigations. \
