- Q1. On the 6<sup>th</sup> & Van Buren site how do we distinguish between the regular work and the additional work with only one site plan? There are 2 bid forms, but I cannot tell how much goes into the first form and how much in the second. Please advise.
- A1. Basically, everything East of the line shown is Metro, other than costs related to the ped push button relocation. Everything West is the 2nd bid.

City of Topeka

Metro (Except for costs related to the push button relocation)
