

RFP TM-22-01
Microtransit System
Questions and Answers #1
July 6, 2022

- Q1. Page 12, #16 indicates a go-live date of 7/1/22?
- A1. There should not be a go-live date. The establishment of services should be completed in a timely and efficient manner upon contract award.
- Q2. Reading through the 3.0 Specifications section leads me to believe you are interested in a turn-key program rather than a software solution - is that correct?
- A2. Metro is only wanting software. (Assuming turnkey means providing vehicles and/or operators.)
- Q3. Page 12, reference Appendices but there doesn't seem to be any. Are there 2 Appendices?
- A3. The reference to Appendices on Page 12 is incorrect. There are no appendices for this RFP.
